

Accessing Resource Group DIS_KUBERNETES in Azure

1. Open the Azure Portal:

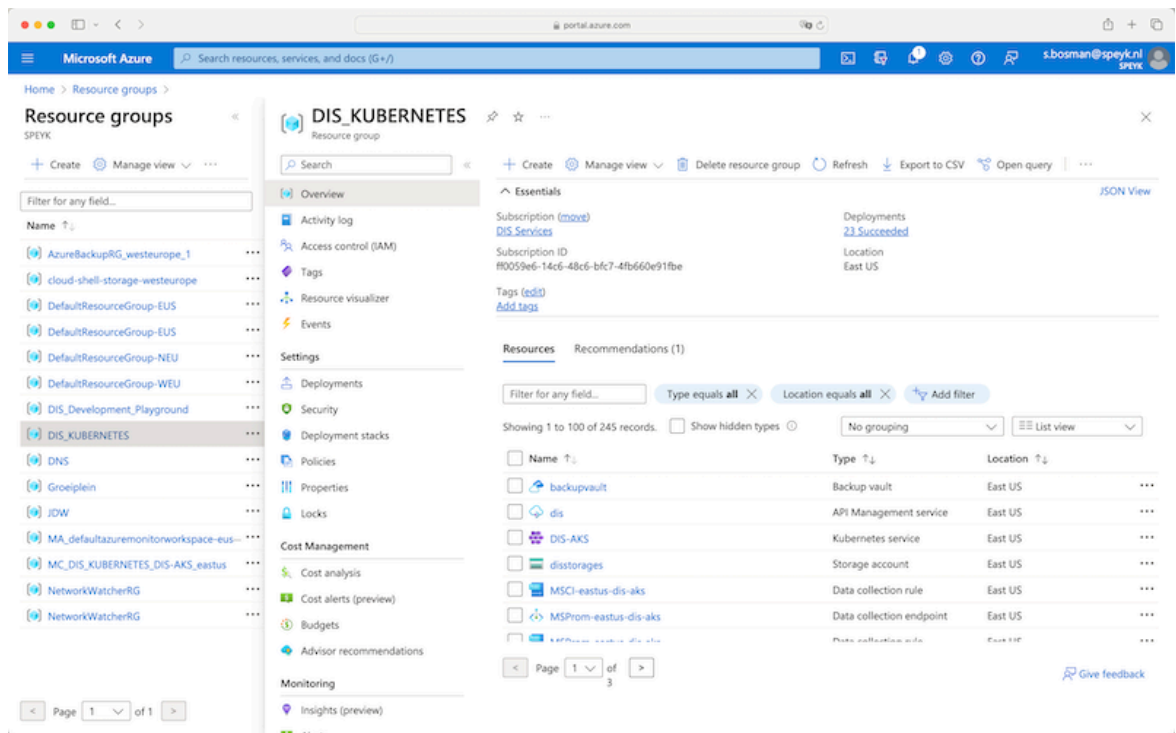

- Launch your web browser and navigate to the Azure portal at <https://portal.azure.com>.

2. Sign in to Azure:

- Enter your Azure credentials to log in.

3. Locate the Resource Group:

- Once logged in, go to the **Resource Groups** and find **DIS_KUBERNETES**.

4. Access Kubernetes Service:

- Within the **DIS_KUBERNETES** Resource Group, locate and click on the **DIS-AKS** Kubernetes service to view its details.

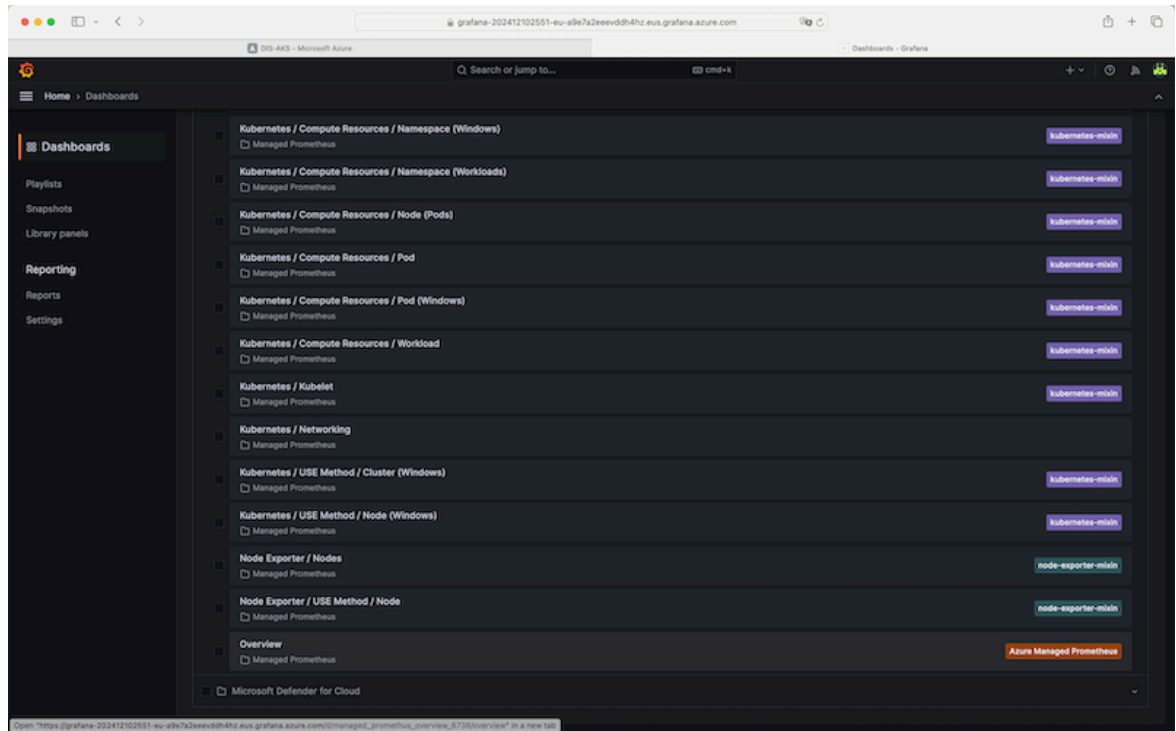

Using Azure Managed Grafana

1. Explore Grafana Dashboard:

- In Grafana, navigate to the monitoring section and click **Explore** in `grafana-202412102551-eu`.

2. View Overview Dashboard:

- Go to `Home -> Dashboards -> Overview`.

3. Inspect Specific Kubernetes Namespace Resources:

- Select `Kubernetes / Compute Resources / Namespace(Pods)` and then `namespace default` to view its metrics.
